## About our Coffee

*Not only are we passionate about making great coffee, we are passionate about where our coffee comes from.*

*We source our coffee from small, local business 'We Love Coffee'. Ever since they were established in 2011, we have had a close working relationship, and they provide coffee that suits every palate. Using local suppliers is something we pride ourselves on, and when their product is fantastic it makes it a lot easier!*

*Our coffee beans are roasted in a convection roaster, roasting the beans from inside out, ensuring perfect consistency every single time. Not only is this the only roaster of its kind in Europe, but it is the most environmentally friendly way of roasting coffee beans.*

*What does this mean for you? The same, great taste, in every single coffee. If you love it as much as us, then please let us know! Our coffee is available to buy so that you can make your Vivi & Co coffee at home*

*Personalised*

# Vivi & Co

Make your trip to Vivi & Co even more special by getting your drink personalised.

Let us pick from our list of designs to make your coffee or Vivi hot chocolate extra special, or ask your server for something personal. From names to birthday messages, we can do (almost) anything!

## Babyccinos

Give your little ones the Vivi & Co experience by getting them a babyccino. We steam the milk (not too hot!) and can add their name and / or their favourite character

## Puppuccinos

Who can forget about our furry friends? Treat your pup to a puppuccino (steamed milk & cream) and have it personalised with their name

## Something a little Extra?

*You might have noticed that we have candles and flower diffusers throughout Vivi & Co*

*We stock Cote Noire luxurious candles and diffusers that make our shop look and smell lovely, but also make a great gift for you or someone else*

*Ask your server for more details on anything that you see and they will be happy to help!*
